

Check what is under SUSTAGRI 4.0 tree 🎄

SUSTAGRI4.0 entered into its mobility exchange event, led by our partner the the School of Engineering at the Univeristy of Valencia, this November (22 -25).

During these four exciting days of **co-creation**, partners and expert trainers, together with professionals in the **Vocational Education and Training (VET) sector**, gathered the final pieces to start designing our upcoming and open access **E-Course**.

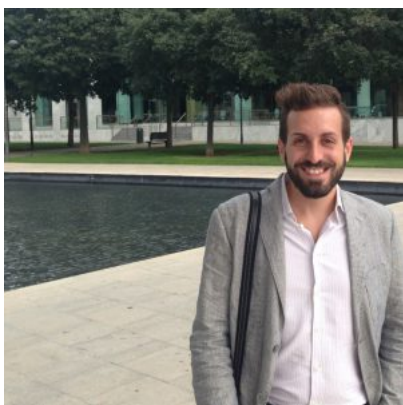

We're looking forward to creating short, engaging videos that people can watch whenever it's convenient. We can't wait to have you join the journey! Stay tuned and get ready to take our open access, certified E-Course in June 2023!

## Flash Interview

How is University of Valencia applying sustainability to SUSTAGRI 4.0? We reached out to José Badia, one of the faces behind University of Valencia. We wanted to know what University of Valencia is responsible for during our 2 year journey and how they are planning to apply the sustainability field in our action.

## What's next?

Our International Report on needs and best practices in the agri-food sector is coming out next month! Did you know that sustainability is not just an environmental issue, but also a social one? Are you a professional trainer in digital skills or a farmer looking to invest in new technology to increase efficiency and connect more with your costumers? Keep your eyes peeled as we put the final touches on our report!
